

Amsterdam, December 2nd 2022

Subject: Price adjustment, World Gymnaestrada 2023

Dear Gymnastic Friends,

As discussed at the information meeting in July 2022, we as LOC are forced to implement price increases in the catering and school accommodation price during the World Gymnaestrada 2023 in Amsterdam

Our LOC, like everyone else in the Netherlands and Europe, faces new challenges due to price increases. The average inflation rate in the Netherlands at this moment for 2022 is 16,8% (inflation in October 2022 compared to October 2021), and institutions predict that inflation rates will remain high for the upcoming months.

The organization was not able to foresee these significant market changes and as result faces financial challenges on several topics. Catering and the facilities at schools are two major topics. We did our utmost to reduce increased costs and we managed to increase efficiency in many products and services we offer, however we need to guarantee a good and safe standard for all our participants, as can be expected from our LOC. This does come at a fair price.

The FIG and the LOC World Gymnaestrada 2023 Amsterdam jointly agreed that we see no other option than to make an adjustment to the earlier communicated price for lunches, dinners and breakfast for the overnight stays in school accommodation. The participant fee will not be increased.

	2019	2023
Lunch 7 hot lunches with a (non-alcoholic) drink included. Every day a different buffet with high quality products.	€122,50	€143,50
Diner 7 hot dinners with a (non-alcoholic) drink included. Every day a different buffet with high quality products.	€122,50	€143,50
School accommodation 8 overnight stays in school with breakfast included.	€205,00	€220,00

***Prices are per person for the whole week including tax.**

We trust on your understanding and cooperation and we look forward to a great event from July 30 to August 5 in Amsterdam.

Best regards,

Manon Crijns
President,
LOC WG2023
